Quality Features

Hardware/Materials

Do you hate chilly and damp hands? Does the riding season seem too short? National Cycle **Hand Deflectors** are an economical solution for extending the riding season.

Hand Deflectors are easy to install. They secure to your bike's mirror mounts, yet allow plenty of room for lever movement and for riders with large gloves.

These Hand Deflectors make a windshield function like a fairing. They also make heated grips work more effectively.

Hand Deflectors come in two sizes and are application-specific to ensure the correct fit for your bike.
